The investment bank Schleswig-Holstein (IB.SH) in Rostock, in its capacity as managing authority / programme secretariat of the Baltic Sea region programme 2007-2013, hereby launches the call for tenders for a monitoring system/database system for the Baltic Sea region programme 2014-2020. The Baltic Sea region programme 2014-2020 will be financed by the European Fund for regional development (ERDF) and is currently in the preparation phase as a renewed funding programme. Projects will be cofinanced for transnational cooperation between the EU Member States Denmark, Estonia, Finland, Germany, Latvia, Lithuania, Poland and Sweden, as well as partner countries Belarus, Norway and Russia. The IB.SH was tasked to prepare the new programme and takes the role - as already for the previous Baltic Sea region programme 2007-2013 - again of the managing authority / the programme secretariat. More information both about the current and the future Baltic Sea region programmes are available at <http://eu.baltic.net>. Task description:

Development, maintenance and hosting a SQL-based online software ("monitoring system / database system"), which supports staff of the programme authorities for the Baltic Sea programme 2014-2020 in documenting and managing the entire project cycle: Application, evaluation, funding decision, contract process, reporting, amendments and completion. In addition, a few more properties will be integrated such as e. g. the communication between recipients and the programme secretariat, the generating of statistics as well as interfaces to websites. Since the monitoring system/database system will represent the most important resource of the programme secretariat and the managing authority, the main focus should be above all on the user experience.

Section III: Legal, economic, financial and technical information

III.1) conditions relating the order:

III.1.1) Deposits and guarantees required : (if applicable)

III.1.2) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them:

According to contractual terms i.V. with VOL/B

III. 1.3) Legal form to be taken by the group of economic operators to whom the contract is to be awarded: (if applicable)

Groups of bidders are allowed. The evidence referred to under III.2) shall be provided for all parties of a bidding group. All partners of a bidding group must submit the offer with the associated tender documents signed and appoint a leader of the Consortium.

Hereby the main contractors and subcontractors are to be named with the respective partial orders. Consortia must separately declare that they are jointly and severally liable.

To avoid violations of the principle of competition according to § 97 GWB, consortia, participating in the tendering procedure, must submit a self-certification with the tender, which justifies the consortium's legitimacy under competition law.

In this it is to be demonstrated that the companies involved can not objectively submit a stand-alone offer due to their operational or business conditions (e.g., capacity, equipment, and/or technical knowledge) and only the merger with a consortium enables them to do this.

In addition, it should be shown that the cooperation in the bidding consortium is a corporate decision, within the boundaries of economically appropriate and commercially reasonable actions.

III.1.4) Other particular conditions: (if applicable)

Special conditions apply for the execution of the order: ☐ yes ☒ no

(If yes) Description of the special conditions:

- Declaration that there are no grounds for exclusion according to § 6 EG paragraph 4 letters a to g VOL/A

2. Meaningful corporate representation of the applicant company (max. 4 A4 pages)

3. Self-certification, that an excerpt from the commercial register contains no negative entries or whether any entries exist.

Note: The GMSH will seek a statement of the central commercial register before the intended contract award.

III.2.2) Economic and financial ability:

Information and formalities necessary for evaluating if the requirements are met:

(if applicable to verify compliance)

4. Self-certification is calculated based on the last 3 fiscal years (2011-2013) regarding the total turnover of the company and sales with regard to the special

nature, the subject of the award (development, maintenance, hosting a database)
5.Declaration (form), whether in the case of an order the contractor intends to award subcontracts.

Note: In the case of the use of subcontractors, the GMSH will request the corresponding commitment from the subcontractor prior to contract award. These must then be sent within 6 days to the GMSH.

6.Declaration (form) with a maximum of 5 references for equivalent services in regard to the special performance, which is the subject of the award (development, maintenance, hosting a database), essentially provided in the last three financial years (2011-2013) for public or private clients, specifying the name of the customer, scope of services, order amount, duration of the contract, contact person, phone number and email address.
