Ljusdal

5.1 Specific challenge to be addressed

Los is a rural locality within Ljusdal Municipality facing unique challenges related to geographic distance, service delivery, and citizen engagement.

5.2 Focus of the call

To foster innovation, improve efficiency, and strengthen local democracy, the municipality seeks to explore a model of intrapreneurship—granting greater autonomy to the local public services in Los while remaining within the municipal structure. .

6. Transnational relevance

This initiative aligns with Interreg's goals of promoting regional development, local empowerment, and cross-border collaboration. We need to learn from others, share our experiences and build networks that can lead to future collaborations.

7. Specific aims to be addressed

Building trust that could lead to further cooperation initiatives

- Our goal is to develop and implement a governance model for intrapreneurship within the municipal framework.
- Increase local decision-making capacity and operational flexibility in Los.
- Foster innovation and local accountability in public service delivery.
- Evaluate and disseminate learnings to other rural municipalities in the region and across borders.

Initiating and keeping networks that are important for the BSR

The project will engage with partners in other Interreg regions to share knowledge, compare governance models, and explore the potential for broader application of the intrapreneurship concept across borders.

Bringing the Programme closer to the citizens

To pilot an intrapreneurship model in Los that grants the local public sector increased self-governance, with the long-term aim of improving service quality, responsiveness, and citizen involvement.

Expected Results:

- A fully functional intrapreneurship unit operating in Los.
- Increased satisfaction among local residents and staff.
- Enhanced efficiency and responsiveness in local services.
- A replicable governance model for other rural communities.

Allowing a swift response to unpredictable and urgent challenges

Greater autonomy and local decision-making capacity creates an operational flexibility that strengthens the local society's responsiveness to sudden changes
