## First level control report incl. checklist

Version 2.2 of 22 May 2017

### A. First level control report

The first level control report and checklist constitute an essential and obligatory part of the project's audit trail. They have to be completed by the first level controller of each project partner. Based on these documents the controller can certify the partner's expenditure. The control report including the checklist has to be submitted to the controlled project partner and to the lead partner for validation of the project's overall progress report.

## 4. Control information

4.1 Expenditure declared to the controller [EUR] 42.115,40

4.2 Expenditure accepted and certified [EUR] 42.115,40

*If the expenditure declared to the controller is higher than the expenditure accepted and certified, please indicate the expenditure, which was deducted from the partner report, in the section "11. First level control certificate" of the partner report.*

4.3 How much of the partner's expenditure have you checked? ☐ 100% ☒ <100%

*Controllers are expected to check 100% of the expenditure. If less than 100% was checked, the sampling method has to be described.*

### 4.3.1 Describe the sampling method

In case of sampling, the controls must be comprehensive in relation to the various expenditure categories. The basic sample includes a minimum of 10% of the amount of expenditure from the list of expenditure (however not less than 5 single items if the list is short). A professional judgment in assessing sampling risk was applied. The controller analyse the chosen sample in order to assess:

- if it includes expenditures which amounts considerably exceed the average amounts of all declared expenditures,
- if verification of selected expenditures will provide reasonable assurance that other items of the population are free from errors/irregularities (e.g. identified during previous administrative or on the spot checks of the project).

The applied sample method is always documented by the controller, in particularly as regards:

- population, - random method,- list of expenditures selected in the basic sample,- list of expenditures selected in the complementary sample,- justification for basic and complementary sample.

An obligatory sample includes:

- public procurement above national and EU threshold - the remuneration of the staff newly employed in the project or staff salaries which have not been subject to controll yet.

If the controller detects any errors/irregularities in the chosen basic sample that may have an impact on other expenditures out of the sample he/she determines the size of the complementary sample based on his/her professional judgment.

Where in a sample is identified error or irregularity in respect of the expenditure, and in the report are not included in the sample - expenses of the same type and / or of the same nature, the controller extends the attempt of these expenses.

2. Where in the sample controller finds serious errors the sample can be extended.

By the occurrence of serious violations must be understood situations where:

- a) The value of ineligible expenditure in the sample exceeds the threshold of 5% of the total budget of the project in the budget line or EUR 1 000 controlled report,
- b) The controller received a reasonable suspicion that found ineligible expenditure arising from actions incompatible with project objectives and/or do not reflect project results,
- c) The controller received a reasonable suspicion that detected ineligible expenditure are the result of fraud by a partner.

3. If the controller determines the occurrence of any of the conditions in point 2, which can occur together or separately, in a given budget line, additional expenditures selected from the remaining expenditures in this budget line. The basic and further samples are increased by 10%.

In case of BL1 staff costs - the sampling includes: E. K-D., A.T., M.Ł., R.G.

In case of BL3 - 18/07/2019.
