### 1.7. Project summary

This summary should capture the essence of your project. Please consider that your readers (on websites, in newsletters etc.) are often not experts in your field. Please focus on selected aspects of your project, and answer the following questions:

What challenge does your project tackle?

Who needs your project? (your target groups, e.g. practitioners from the environmental departments of the regional authorities)

What cannot these people do or could do better? (the larger context)

What stops them? (specific barriers)

What are your solutions to overcome these barriers?

How can your solutions help overcome the barriers?

How can your project outcome affect other people outside your target groups? What is the change your project intends to bring in for society?

### 1.8. Summary of the partnership

Please provide an overview of the partnership, and answer the following questions:

What is the composition of the project partnership? What competences do these project partners bring to implement the project?

Which target groups are represented by the project partners

(if applicable) Please explain imbalances in the partnership (e.g. missing types of organisations or sectors, one country/partner with significantly higher share of the budget and responsibilities for the implementation of the project).

(if applicable) What competences do the associated organisations have to support partners in implementing the project?

203 / 1,000 characters

Has this organisation ever been a partner in the project(s) implemented in the Interreg Baltic Sea Region Programme?

Yes  No

**State aid relevance**

For the partner type selected, the Programme sees a medium to high risk for implementing State aid relevant activities. If the partner is of the opinion that its activities are not State aid relevant, it can ask the MA/JS for a plausibility check on the State aid relevance. Does the partner want to do this?

Yes  No

**Justification why the partner's activities are not State aid relevant**

Please provide detailed justification why the partner's activities are not State aid relevant. For this justification, please consider the State aid criteria as laid down in Article 107(1) of the Treaty for the Functioning of the European Union (TFEU). Please answer the following questions:  
 - Economic activity: an economic activity is any activity consisting of offering goods, works or services on a market. An economic activity is present if a partner provides goods or services in the context of the project that could be provided by a private operator with the view to making profit (even if this is not the partner's intention within the project). To justify that the partner's activities are not State aid relevant, the partner has to explain why its organisation does not carry out an economic activity as defined above.  
 - Advantage: an advantage is any economic benefit which an undertaking could not have obtained under normal market conditions, i.e. without the programme co-financing. An advantage is present if a partner is relieved of costs that it would have to pay in the normal course of business, like other organisations that offer similar products and services on the market.  
 To justify that the partner's activities are not State aid relevant, the partner has to explain why its organisation does not receive an advantage as defined above. The MA/JS will base its assessment of the partner's State aid relevance on your arguments.

### Work package 1

#### 5.1 WP1 Preparing solutions

#### 5.2 Aim of the work package

The aim of this work package is to prepare solutions to help address the identified challenge. You can either develop entirely new solutions or adapt existing solutions to the needs of your target groups. Prepare your solutions in a way that you can pilot them in Work Package 2. Consider how you involve your target groups in preparation of the solutions.  
 Organise your activities in up to five groups of activities to present the actions you plan to implement. Describe the deliverables and outputs as well as present the timeline.

Start Work Package 2 early enough to have time to pilot, evaluate and adjust solutions, together with your target groups. By the end of this work package implementation the solutions should be ready to be transferred to your target groups in Work Package 3.  
 The piloted and adjusted solution should be presented in one project output.  
 Organise your activities in up to five groups of activities. Describe the deliverables and outputs as well as present the timeline.

Indicators

Output indicators				Result indicators		
Output indicators	Total target value in number	Project outputs	Please explain how the solution presented in this output serves the target group(s).	Result indicator	Total target value in number	Please explain how organisations in the target groups within or outside the partnership will take up or upscale each solution.
RCO 84 – Pilot actions developed jointly and implemented in projects	2	N/A	N/A	RCR 104 - Solutions taken up or up-scaled by organisations	2	This indicator counts solutions that are used by at least one organisation within or outside the project partnership. The solution should be used either by an organisation that was not using it before the project or by an organisation that was already using it before the project and will now extend the planned duration or increase the scale.  <small>343 / 2,000 characters</small>
RCO 116 – Jointly developed solutions	2	O.2.3: Output 2.3	This indicator counts the solutions contributing to solving the challenges identified by the project. Solutions are piloted during the project implementation. Projects can develop entirely new solutions or modify/upscale existing solutions after the testing phase. ('Upscale' means e.g. to apply to a larger region, other organisations, cities or countries). Each solution is presented in an output.  <small>399 / 1,000 characters</small>			
		O.2.4: Output 2.4	This indicator counts the solutions contributing to solving the challenges identified by the project. Solutions are piloted during the project implementation. Projects can develop entirely new solutions or modify/upscale existing solutions after the testing phase. ('Upscale' means e.g. to apply to a larger region, other organisations, cities or countries). Each solution is presented in an output.  <small>399 / 1,000 characters</small>			

Output indicators		Result indicators			
Output indicator	Total target value in number	Result indicator	Total target value in number	Please describe what types of organisations are planned to actively participate in the project. Explain how this participation will increase their institutional capacity. These types of organisations should be in line with the target groups you have defined for your project.	
RCO 87 - Organisations cooperating across borders	7	PSR 1 - Organisations with increased institutional capacity due to their participation in cooperation activities across borders	16	Project partners and associated organisations	This indicator counts the project partners, associated organisations, and any organisations outside the partnership that actively participated in cooperation activities of a project across borders and consequently increased their institutional capacity.  <small>253 / 1,500 characters</small>
				Other organisations	This indicator counts the project partners, associated organisations, and any organisations outside the partnership that actively participated in cooperation activities of a project across borders and consequently increased their institutional capacity.  <small>253 / 1,500 characters</small>
