

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

# Funding to build a greener and more resilient Baltic Sea region

Webinar

WebEx | 17 January 2024

# Agenda

- Welcome and warm-up
- What have we reached so far?
- **Priority 1: Towards more innovative BSR**
- Inspirations from PACs
- Break
- Q&A
- **Priority 3: Towards more climate-neutral societies**
- Inspirations from PACs
- Break
- Q&A
- **Application process: Support and next steps**

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

# What have we reached so far?

Ekaterina Latysheva, Project Officer

WebEx | 17 January 2024

**We put into practice innovative,  
water-smart and climate-neutral solutions  
through transnational cooperation  
for the benefit of citizens across  
the Baltic Sea region.**

# Our focus

## Supporting transition

Towards greener and more resilient societies and economies

## Supporting public authorities

In meeting needs of communities and companies etc.

## Creating practical solutions

To challenges in the Baltic Sea region and for clearly defined users

56

# Core projects

Core changes for the region.

**Develop a solution to a challenge,**  
and bring it to the people in the  
Baltic Sea region.

30

# Small projects

Small steps for a big change.

**Easier accessible funding.**

A testing ground to learn Interreg,  
**working across borders with  
partners from different countries.**

# Distribution of projects per Priority

# Open call for best ideas!

## Interested in priority **Innovative societies?**

Show us how to best bring communities into new directions or boost digitalisation. Other ideas are also welcome.

## Interested in priority **Climate-neutral societies?**

Be sure to take climate change into account; no other option this time!

# Funds for projects in this call

ERDF

# Connect your project idea to the macro-region!

Find contacts at  
[interreg-baltic.eu/gateway](https://www.interreg-baltic.eu/gateway)

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

## Talk to the coordinators of the EU Strategy for the Baltic Sea Region.

**EUSBSR**  
EU STRATEGY  
FOR THE BALTIC  
SEA REGION

<https://www.eusbsr.eu/>

It's time to submit your project idea form *very soon*.

# Call for *great* ideas!

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

## Timeline

- 17 April 2024 Submit your Project Idea Form
- 17 April 2024 Request access to BAMOS+
- 21 June 2024 Submit your Application via BAMOS+

Everything you need is here:  
[interreg-baltic.eu/gateway](https://interreg-baltic.eu/gateway)

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

# Towards more innovative BSR

Agnieszka Lipińska, Senior Project Officer

Mateusz Ropiak, Project Officer

WebEx | 17 January 2024

# Innovative societies

**Programme objective 1.1** Resilient economies and communities

**Programme objective 1.2** Responsive public services

# Why do we address **resilience**?

- We depend on **global developments**
- **Situation** is dynamic (post-pandemic challenges, war, energy crisis...)
- We want to prepare for **unexpected developments**
- We want to **recover quickly**

# Why and how do we want to make public services **responsive**?

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

- Growing **demands**, decreasing **budgets**
- Overcoming **innovation barriers** and use of **new technologies**
- **Spotting, targeting**, and **better adjusting** to the needs of **residents**
- Considering different **regions** and **social groups**

# Surprise us with new ideas!

**for bringing communities  
into new directions or  
boosting the potential  
of digitalisation, like...**

PRIORITY 1  
Innovative  
societies

- ✓ preparing responses to extreme weather events and other disasters
- ✓ ensuring the communities' well-being and safety
- ✓ helping businesses in transition
- ✓ introducing digital tools in public services
- ✓ introducing digital tools to monitor and respond to arising challenges

Other ideas are welcome, too!

# Preparing responses to extreme weather events and other disasters

What can  
you do?

EMERGENCY  
PLAN

SOS

## Increase disaster preparedness

*Possible directions:*

**Assist public authorities** in enhancing their competences to develop strategies for managing extreme weather events.

What can  
you do?

COORDINATION

## Increase disaster preparedness

*Possible directions:*

**Optimise coordination** models among civil protection agencies for effective response to emergency situations.

What can  
you do?

## Increase active engagement of citizens

*Possible directions:*

Employ cutting-edge technologies to **foster community participation** in coordinating emergency responses.

What can  
you do?

## Increase awareness of citizens

*Possible directions:*

**Empower citizens** with knowledge on how to react in the face of extreme weather events.

# Ensuring the communities' well-being and safety

What can  
you do?

## Introduce modern support models or services

*Possible directions:*

Use digitalisation to **connect volunteers with those in need** to foster care and support for vulnerable or isolated community members.

Ongoing project example:

## Kids Like Us

Educators, public authorities and NGOs explore how contact with nature and appeal to all senses can improve mental well-being of children with traumatic experiences.

# Helping businesses in transition

What can  
you do?

## Create models to reduce BSR's dependence on global supply chains

*Possible directions:*

Establish programmes to facilitate **partnerships between businesses and regional suppliers.**

## Ongoing project example:

# MI-RAP

Helps local authorities, sectoral agencies and business support organisations attract talents to the music industry and ensure cross-sectoral cooperation and integration of emerging technologies and green practices.

# Introducing digital tools in public services

What can  
you do?

## Design inclusive services

*Possible directions:*

Facilitate inclusion of vulnerable groups via **improved digital access to social services** and administrative requirements.

What can  
you do?

GAMIFICATION  
STRATEGY!

## Transform public services

*Possible directions:*

Test **gamification** approaches to strengthen the participation of marginalised groups in public life.

Ongoing project example:

**CAIDX**

Artificial intelligence (AI) providers and healthcare institutions work on helping healthcare professionals integrate AI, and thus improve diagnostics and treatment.

What can  
you do?

## Develop trustworthy digital services

*Possible directions:*

Improve **secure data exchange** between various public authorities databases to streamline e-services provision.

# Introducing digital tools to monitor and respond to arising challenges

What can  
you do?

## Upgrading authorities responsiveness

*Possible directions:*

Optimise **digital surveillance models** to enable fast and informed decision-making to tackle biodiversity challenges.

What can  
you do?

## Enhancing climate change monitoring

*Possible directions:*

Pilot citizens-supported **online monitoring systems** to swiftly identify risks related to climate change.

What can  
you do?

## Harmonising systems

*Possible directions:*

**Harmonise data collection systems** to enable rapid responses to emergency events and environmental threats.

## Something else on your mind?

No problem, we accept other good ideas for building Resilient economies and communities & Responsive public services, too.

For details & examples of what we fund, go to the [interreg-baltic.eu/gateway](https://interreg-baltic.eu/gateway)

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

# Inspirations from the EUSBSR policy area coordinators

Elena Kolosova, Senior Advisor For External Cooperation

WebEx | 17 January 2024

# EU Strategy for the Baltic Sea Region

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

## Coordinators of the policy area Innovation:

- The Baltic Institute of Finland, **Esa Kokkonen**
- Ministry of Education and Science, Poland, **Zuzanna Kozłowska**
- Ministry of Economic Affairs and Communications, Estonia, **Kristi Aruküla**

<https://www.eusbsr.eu/contacts/eusbsr-actors>

### Inspiration from policy area Innovation

**Digitalisation of public services**, by developing

- interoperable and open digital solutions in public services (e.g. in smart cities/villages context/domains)
- human-centered digital transformation

For example, by focusing on

- safe and ethical adoption of AI (ref. the new EU AI Act) and digital trust
- digitally enhanced citizen-participation, e.g. through the use of XR technologies related to real urban/public spaces and services

**Digitally enabled green transition and climate actions**, e.g. through

- AI and data-driven urban solutions like local digital twins and IoT platforms (e.g. in smart infrastructure development and monitoring, optimized resource allocation, environmental and disaster risk management)
- digital transformation of bio/circular/blue economy
- collaborative (digital) BSR climate actions under EU climate and cities missions

<https://www.eusbsr.eu/pa-innovation-about>

# EU Strategy for the Baltic Sea Region

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

## Coordinators of the policy area Secure:

- Council of the Baltic Sea States Secretariat (CBSS), **Andriy Martynenko & Vineta Polatside**
- Swedish Civil Contingencies Agency, **Julia Fredriksson**

<https://www.eusbsr.eu/contacts/eusbsr-actors>

### Inspiration from policy area Secure

**Theme 1: Increasing the region's resilience to the consequences of climate change through improved capacity of national governments and local administrations in:**

- Integration of climate risks into national risk assessments
- Improved understanding of current, emergent, and future risks at the local level

**Theme 2: Whole-of-society approach in preparedness, prevention and response to disasters**

- Forming cross-sectoral, multi-disciplinary platforms consisting of administrations, NGOs, businesses, civil protection agencies, academia, youth and volunteer organisations
- Inclusion of vulnerable groups (minorities, elderly, children, disabled) into the disaster risk reduction activities
- Crisis and risk communication to society (with special focus on vulnerable groups)

**Theme 3: Increasing the supply chain resilience in the region**

- Building the platforms in the region consisting of the supply chain authorities, businesses and other relevant actors

<https://www.eusbsr.eu/policy-areas/pa-secure>

<https://www.bsr-secure.eu/>

# EUSBSR policy area coordinators supporting Interreg Baltic Sea Region applicants

**Interreg**  
Baltic Sea Region

Co-funded by  
the European Union

# Priority 3: Towards more climate-neutral societies

Orsolya Schulz, Senior Project Officer/Deputy Team Leader

Hunter Reinhardt, Project Officer

WebEx | 17 January 2024

# Climate-neutral societies

Programme objective 3.1 Circular economy

Programme objective 3.2 Energy transition

Programme objective 3.3 Smart green mobility

# Why do we address **circular economy**?

- Growing ecological **footprint** of the region and waste production
- **Overexploitation** of the **natural resources**
- Gap in creating **norms and standards** for circular use of resources
- Solutions to **develop circular strategies** across different sectors

# Why do we address **energy transition**?

- Realise **green transition**
- **Decarbonisation**, reduction of greenhouse emissions & supporting **renewable energy**
- Reaction to the **energy crisis**
- Different levels of **energy production & consumption**

# Why do we address **mobility**?

- Need to **mitigate greenhouse gas emission** and other pollution stemming from **increasing passenger and freight mobility**
- Need for **further support to urban areas** and their **hinterlands**
- Need to change to **green and alternative fuels** and **multimodal mobility**
- Need for better **use of information in mobility systems**

# Focus exclusively on climate change

# Four specific thematic blocks

Planning processes in  
sectors key to  
mitigating climate  
change

Participatory and  
inclusive approaches

Generation,  
distribution and  
storage of energy

Promoting circular  
practices

## Planning processes in **sectors** **key** to mitigating climate change

- **Adopting and implementing** integrated and systemic approaches
- E.g. transport, energy, building and constructions, waste management sectors etc.

Planning processes in sectors key to mitigating climate change

## • Examples

- Developing and testing a “material bank” or marketplace to improve resource management and match construction and demolition waste producers with possible consumers

Planning processes in sectors key to mitigating climate change

## • Examples

- Work with national authorities on the integration of bio-gas into their energy strategy and boost the legal framework in line with the needs of the users and producers

Planning processes in sectors key to mitigating climate change

## • Examples

- Develop and test innovative planning and collaboration solutions for municipalities and businesses to develop last mile cargo bike logistic plans

## Participatory and inclusive approaches

- Mainstreaming climate conscious solutions with specific attention on **vulnerable users** and **territories**
- Ensuring a **fair transition**

## Participatory and inclusive approaches

## • Examples

- Establish long lasting collaboration among municipalities, NGOs, and citizens to e.g. create and maintain a digital tool for collecting and redistributing functioning or repairable household objects

## Participatory and inclusive approaches

## Examples

- Equip municipalities with knowledge and planning processes on initiating and creating positive energy districts with special focus on the more vulnerable neighbourhoods.

## Participatory and inclusive approaches

## Examples

- Implementing solutions to help municipalities set up sharing economy initiatives with entrepreneur and citizen support at circular hubs

## Generation, distribution and storage of energy

- Implementing effective strategies in transforming the energy sector

harbours as green energy hubs

Generation, Distribution  
and storage of energy

## Examples

- Assist cities in implementing systems for balancing energy loads in residential areas, such as smart metering systems

Generation, Distribution  
and storage of energy

- **Examples**
  - **Coordinating energy policies across borders, connecting regional and national authorities to develop a more integrated, pan-BSR energy generation system, and aligning national frameworks**

Generation, Distribution  
and storage of energy

## Examples

- **Building citizens' or infrastructural energy resilience in the face of climate change, especially in underserviced or disadvantaged regions**

## Promoting circular practices

- Supporting **businesses** and **communities** in taking up circular practices
- E.g. Encourage the uptake of norms and standards by cities or businesses

## Promoting circular practices

## Examples

- Developing and applying pathways incl. policies and incentives to restrict single use products in a selected area of public procurement

## Promoting circular practices

## Examples

- Testing and applying circular solutions to storm- and waste water in municipal or regional water infrastructural systems

## Promoting circular practices

## Examples

- Develop pathways for industrial symbiosis in carbon-intensive industries like cement-making, helping cities and regions plan for district heating.

# EU Strategy for the Baltic Sea Region

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

## Coordinators of the policy area Bioeconomy:

- Nordic Council of Ministers Secretariat, **Kristian Ersbøll Berg Poulsen & Torfi Jóhannesson**
- Ministry of Agriculture and Forestry, Finland, **Leena Anttila**
- Ministry of Agriculture of the Republic of Lithuania, **Dalia Miniataite & Vitalija Fokienė**
- Swedish Board of Agriculture, **Fredric Nilsson**

<https://www.eusbsr.eu/contacts/eusbsr-actors>

## Inspiration from policy area Bioeconomy

Overall focus: **Circular Bioeconomy**

Areas:

- **Urban agriculture**
- Development of **closed circulatory production systems** based on insects, hydroponics, micro-organisms (yeast, algae, bacteria), aquaculture
- **Industrial symbiosis**

<https://www.eusbsr.eu/policy-areas/pa-bioeconomy>

# EU Strategy for the Baltic Sea Region

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

## Coordinators of the policy area Energy:

- Ministry of Climate and Energy, Latvia, **Marija Zjurikova, Ilze Prūse & Aija Timofejeva**
- Ministry of Climate, Estonia, **Reesi Runnel**
- Lithuanian Energy Agency, **Vytenis Barkauskas & Aušra Piliuvienė**
- European Commission, DG Energy, **Anca-Iulia Cimpeanu**

<https://www.eusbsr.eu/contacts/eusbsr-actors>

### Inspiration from policy area Energy

- Developing plans to **utilize local renewable energy sources**, e.g. in agriculture, industry, and defence
- Analysing and testing **solutions for security of energy supply** challenges related to increasing the share of renewable energy sources
- Strengthening of **an integrated and more systematic approach to energy policy planning**, including strengthening analytical competence and tools, local and municipality level of National Energy and Climate Plans
- Piloting actions that strengthen the **involvement of citizens** such as accelerating the deployment of demand response solutions and development of energy hubs and green energy communities;
- Piloting actions that strengthen the **acceptance of development of renewable energy** among citizens;
- Development of solutions that increase **energy efficiency** in particular in buildings and in industrial production processes (e.g. addressing different existing barriers to speed up a '**renovation wave**').

<https://www.eusbsr.eu/pa-energy-about>

# EU Strategy for the Baltic Sea Region

Interreg  
Baltic Sea Region

Co-funded by  
the European Union

## Coordinators of the policy area Transport:

**EUSBSR**  
EU STRATEGY  
FOR THE BALTIC  
SEA REGION

- Ministry of Climate, Estonia, **Tarmo Ots**
- Association of Transport Innovations, Lithuania, **Inga Ablyingienė**

<https://www.eusbsr.eu/contacts/eusbsr-actors>

### Inspiration from policy area Transport

PA Transport recommendations are based on the **European Commission Communication on the New EU Urban Mobility Framework** :

- Developing **heat/emission maps with real-time mobility data** for promoting clean transport modes, i.e. electric vehicles, walkers, bicycles, public transport, etc.
- Development of **alternative transport concepts for regions or towns**, replacing inefficient approaches, for instance – urban logistics and last-mile delivery projects.
- Integration of **new and innovative modes of transport into existing traffic/mobility** systems using 5G, CCAM (cooperative, connected and automated mobility) etc. which replace more polluting approaches.
- **Exploration of Urban Air Mobility**, encouraging municipalities to experiment with different use cases and formulate a UAM vision and strategy.

# Application process

# Application process

## Your gateway

### Your support package

- **Documents** you need to get access to BAMOS+ and to apply for funding;
- Application **process & timelines**;
- **Consultations**;
- **Guidance materials** (Programme Manual; info materials; video tutorials);
- Upcoming **webinars**.

# Checkpoints

## Good to know

Condense info for newcomers at [interreg-baltic.eu/funding](https://interreg-baltic.eu/funding)

Checklist to make sure you fit at [interreg-baltic.eu/funding/checklist](https://interreg-baltic.eu/funding/checklist)

## Video tutorials

[interreg baltic.eu/gateway/tutorials/](https://interreg-baltic.eu/gateway/tutorials/)

- On Programme **objectives**;
- On **the budget** and simplified cost options;
- On **good quality** core projects;
- On **how to apply** (*coming soon*);
- On **matchmaking** platform.

## Webinars on the way

- > **24 and 25 January** Webinar on good quality projects: shaping content & planning finances
- > **31 January** Info event for Latvian applicants
- > **8 February** Info event for Polish applicants

## Webinars on the way

- > **21 February** Thematic webinar (repeated)
- > **27 February** UBC talks
- > **28 and 29 February** Webinar on good quality projects: shaping content & planning finances (repeated)

# Matchmaking platform

## Join the community

- Secure environment & **strong community** of ca. 1400 people;
- Platform to **search for and connect with** relevant partners;
- **Project idea groups** for joint development of project applications;
- Flexible setting of visibility & access.
