Meeting on November 18, 2024

To Improve School Meals in Bremen

At 5 pm: 5 Lectures from “Pioneer” schools, catering organizations and school kitchens

- *Pioneer schools have either overcome obstacles within Bremen administration or are already serving lunch for 1 EUR per day*

At 6 pm: a cooked dinner by 9th graders of a Bremen school

- Networking
- Exchange
- Guided discussions (for each table there will be an expert present from the field)
- So far: 59 external registrations

Meeting on November 18, 2024

To Improve School Meals in Bremen

Goal:

- The result from our LTA
 - Missing exchange between relevant actors, especially parents.
 - Also lack of information: how is the food provision organized?
- > So, lectures and event aim to foster **exchange, networking** and **spreading information**.
- > We will summarize the findings of this event: What are the participation possibilities each actor has?
- > Next steps discussed in this meeting and with our working group afterwards – depending on the meeting.

Transforming Food Systems

**BIOStadt
BREMEN**

**How Bremen is going from
“One kitchen at a time”**

to

“systemic change across multiple levels”

Creating local knowledge hubs – enabling local change agents

- Providing tools to local change agents
- Creating a local community of practice

Enabling systemic change by creating a food policy framework

- Goal of a food policy framework till 2025
- Creating policy working groups at the state level
- Fostering community engagement with the topic

Fostering cross border cooperation and learning

- Exchanging ideas through international projects, networks
- Applying foreign solutions at home
- Presenting local achievements at a European level
