MONDAY 18 NOVEMBER 2024, ONLINE

Circular nutrients for a sustainable Baltic Sea Region

The CiNURGi project supports the implementation of the Baltic Sea Regional Nutrient Recycling Strategy. The project aims to encourage the creation and development of a circular economy for nutrients. To achieve this, the project will develop and promote standards for the safe and sustainable recycling of nutrients as well as strategies to improve national and regional nutrient balances. Additionally, the project seeks to improve policy coherence concerning nutrient recycling in the Baltic Sea Region, increase the acceptance and use of recycled nutrients, and create business opportunities around nutrient recycling. Join a webinar for an overview of CiNURGi project activities and progress. The event is open to everyone interested in these issues.

REGISTER NOW!

Time (EET/UTC+2)	Programme	Speakers
13:00	Opening words and introduction <ul style="list-style-type: none">– Welcome by Coordinating Team– Overview of meeting objectives and alignment with EU and regional nutrient strategies	Erik Sindhøj and Cheryl Cordeiro RISE
13:10	Preparing solutions <ul style="list-style-type: none">– Update on nutrient recycling potential to improve national and regional nutrient balances– Industry standards for recycled fertilizers– Market evaluation and policy review– Planning nutrient recycling investments	Sari Luostarinen Luke
