Best regards,

The RESIST project, implemented under the Interreg Baltic Sea Region Programme, aims to foster social and environmental innovation by establishing a transnational support ecosystem. The project's key activities focus on developing and testing innovative solutions that will enhance the capacity of regions to effectively implement policies related to social entrepreneurship. The project is co-financed by the European Regional Development Fund (ERDF), and its activities are designed to benefit local communities by supporting them in innovation processes and sustainable development.

💰 **Total budget: €3.62 million, including €2.58 million from the European Regional Development Fund (ERDF).**
