

Invitation to webinar:

## Fossil - free playground surfaces - presentation of new products

Organized by the City of Stockholm in collaboration with the City of Västerås, within the project NonHazCity 3.

### When?

8 October 2025 kl. 14-15.30

### Where?

Zoom-X

### For whom?

For everyone who works with sustainability in the construction and construction process, with a focus on materials and chemical content.

### Registration:

[Via this link](#)

Please, register latest the 6th of October

### More information:

The webinar is conducted in English. The webinar will be recorded and can be seen afterwards.

### Any questions?

Please contact Jenny Fäldt,  
[jenny.falddt@stockholm.se](mailto:jenny.falddt@stockholm.se)

Three new fossil-free playground materials have been developed in Norway. They consist largely of local renewable materials and waste products such as wood, wood chips and bark. The surfaces are now installed in Oslo and Bergen, among others.

The products have been developed partly through an innovation project with the municipalities of Oslo and Bergen. In this webinar, representatives from suppliers Baremark, Lekbark and Shockdeck talk about their products.

### Introduction

- Jenny Fäldt, Miljöförvaltningen, the City of Stockholm
- Christina Larsson, the City of Västerås

### Material suppliers

- Tone Berge, BioSpinOut One, Baremark,
- Lars Johansson, Woodworks! Cluster, Lekebark
- Kolbjørn Setvik, Rampline, Shockdeck

### Discussions and questions from the audience
