SPOT THE PFAS!

1. Which of these foods contain the highest concentrations of PFAS?

- 1. Seafood
- 2. Chicken
- 3. Butter

2. Where is the known place with the highest level of PFAS pollution?

- 1. Holloman Lake, New Mexico
- 2. Vantaanjoki River, Finland
- 3. Veneto Region, Italy

3. Which household item has the highest PFAS concentrations (put in order from bibber to smaller)?

- 1. Household firefighting products
- 2. Textile finishing agents
- 3. Household chemicals

4. Over 70 000 people in US have taken action and signed petitions calling on famous fast food chain CEO to remove PFAS from their packaging. The campaign was called:

- 1. McToxic
- 2. No PFAS, just a burger for me!
- 3. We're not lovin' it!

5. Hold my beer! Seven liters of water are needed to produce one liter of beer. Does beer have PFAS?

- 1. Yes, most of the beers tested in US had detectable levels of PFAS.
- 2. No - water is filtered for production of beer - no PFAS should be in the finished product.
- 3. I like beer and I am not sure I want to know about PFAS in my beer.

6. What is a PFAS group chemical which has been recently detected in high concentrations in wines?

- 1. PFOA
- 2. TFA
- 3. Knowing that PFAS are in my wine makes me so stressed that I can't think properly!

7. A movie inspired by a shocking true story, centers around a young lawyer who uncovers a terrifying truth about a corporation who has been secretly poisoning communities (with PFAS) for decades. What is the name of the movie?

- 1. The Toxic Legacy
- 2. The Price of Silence
- 3. Dark Waters
