Climate-4-CAST

Exchange & peer support

Within the training module events and in between/outside the module events

RESULTS

- | | |
|--|------------|
|  Moderated discussions in breakout rooms, on same or different topics | 70% |
|  Peer-matching with other cities & exchange; organised or free-form | 70% |
|  Homework related to the module topic / climate budgeting stage | 30% |
|  Own mini-CB pilot exercise with a chosen climate action | 40% |

Digital contact cards

- **Why:** to escape the constraints of the online module formats, network and build connections to the other experts, capitalising on exchange outside the training course
- **How it works:** our today's city speakers have included digital contacts into their slides – now it is your turn to submit a digital contact card
- **What next:** little elves will match your submitted replies and send email suggestions to connect with your climate budget twin
 - Possibility to exchange and receive mentoring support at M5 Practical CADS tool training – open to all training course participants!

Matti Forecastsson

Environmental expert / Financial dept
Climaville, Greenland

[Matti.Forecastsson\[at\]climaville.gl](mailto:Matti.Forecastsson@climaville.gl)

I'm doing climate budgeting for 18 months
I have expertise in building cross-departmental cooperation

I'd like to learn about effectiveness of climate actions in varying contexts

My city is good at testing the innovative approaches

I want to twin with a city that has results in climate budgeting in mobility sector

I'll be attending hands on training in person on 1-2 September 2026 in Turku

Register to M4: Analysing costs & benefits, building scenario and interpreting results [[online](#)] on 7 May 2026

Submit a Digital Contact Card for city twinning [[link](#)]
