

PAPER BUTTERFLY

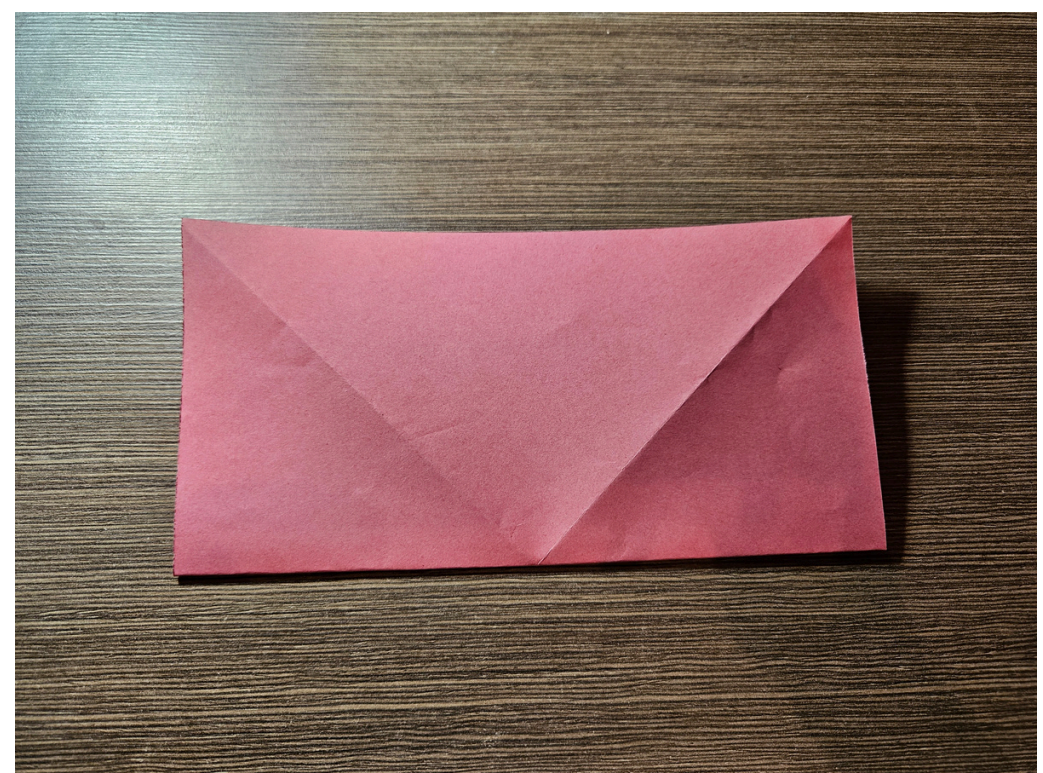

1.. Fold an A4 sheet of paper diagonally to form a square and cut out the remaining rectangle.

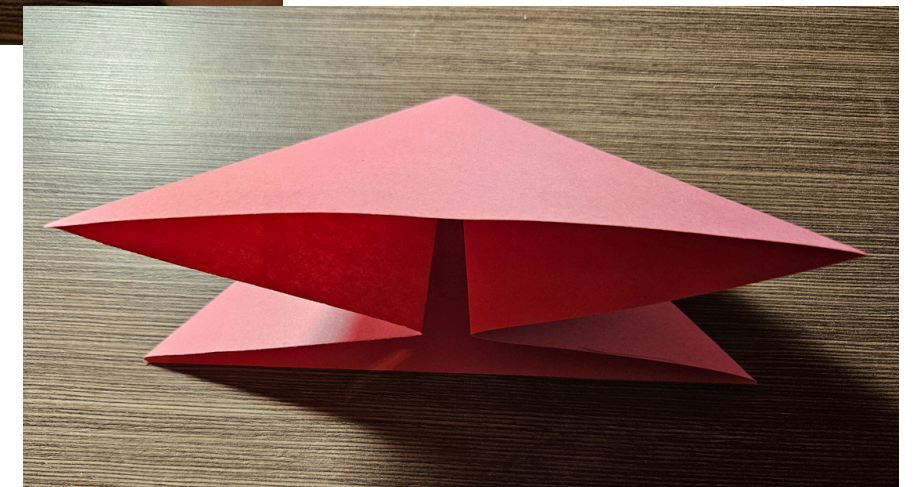

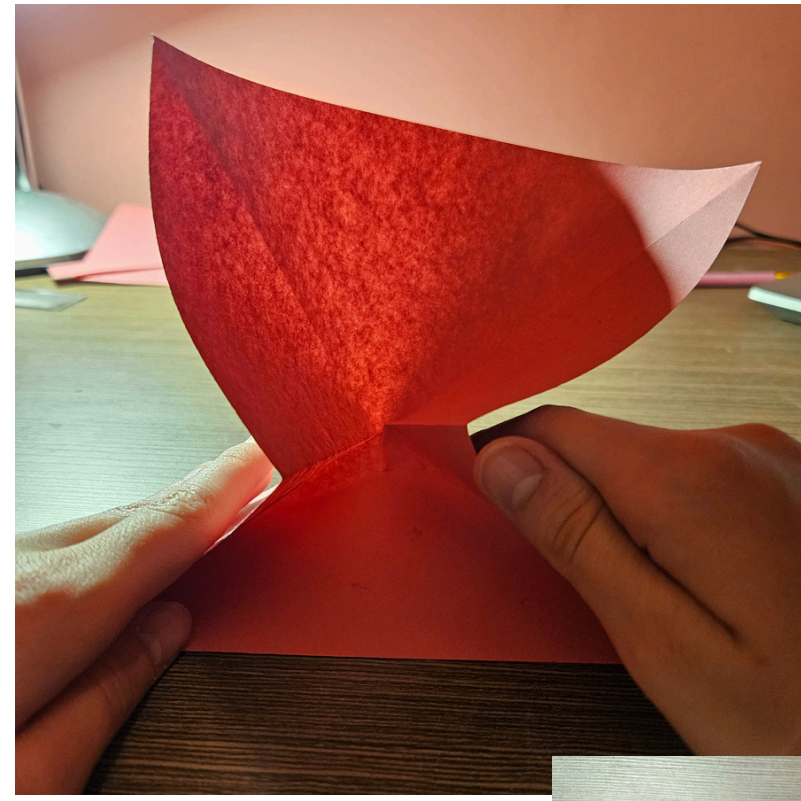

2. Fold the square diagonally on both sides into a triangle shape, creating lines (an X should be created).

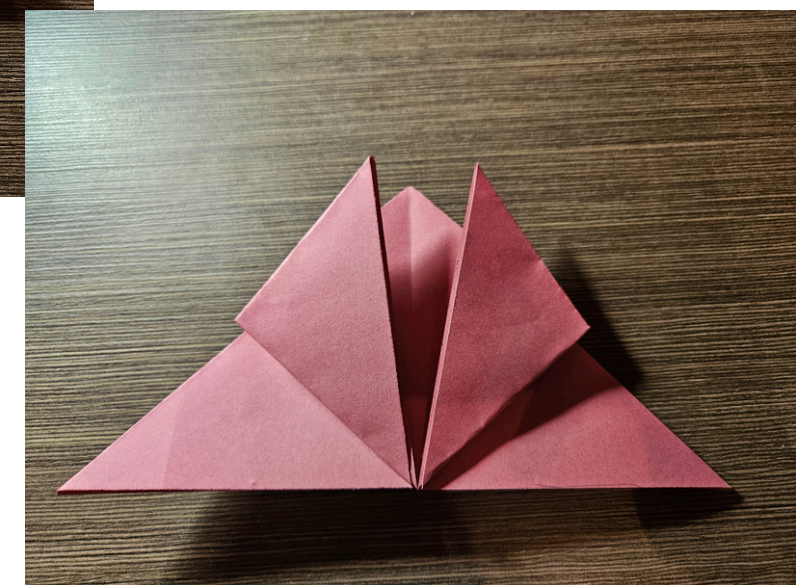

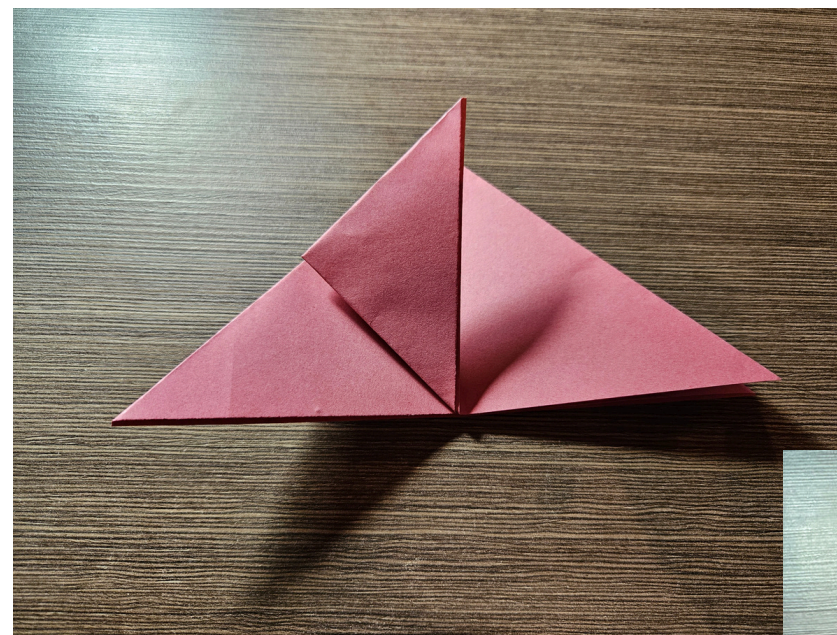

3. Turn the paper over and fold the bottom part up to form a rectangle.

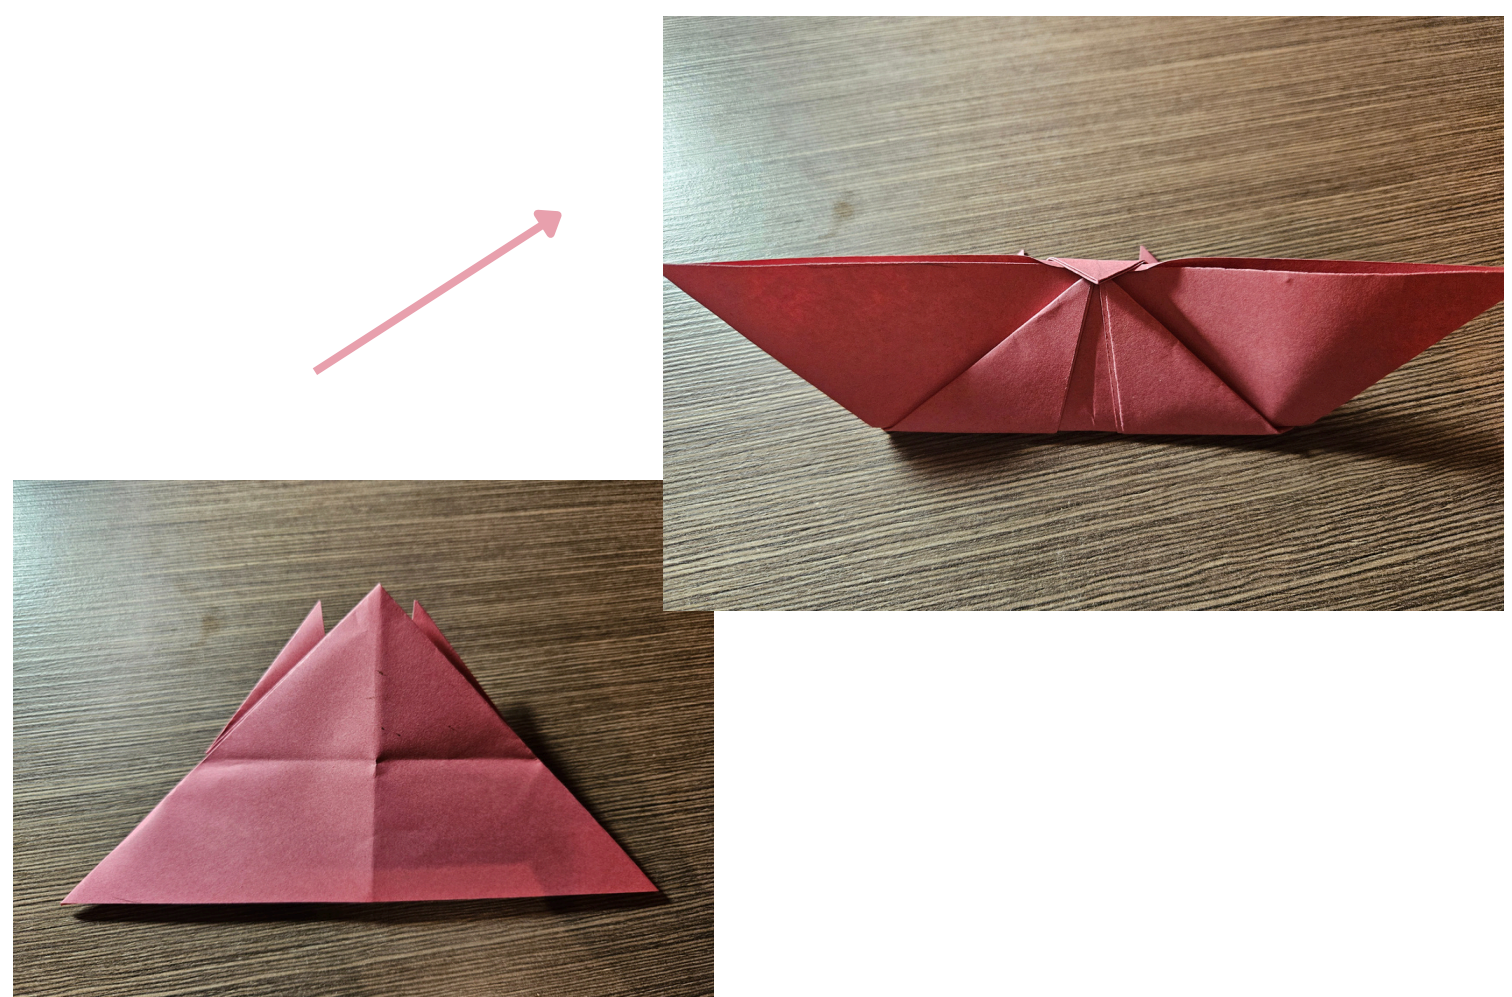

4. Open it and turn it over again so that the folds form an X. Grab the sides of the paper and fold it in half, the top should touch the bottom, creating a triangle.

5. Fold both corners up.

6. Turn the paper over and fold the bottom part up, then fold the top down.

7. Finally, bend the wings and form a body.

The butterfly is ready!
