interreg-baltic.eu/project/startsun

Start-Up Package – what is it and how do we eat it?

- Built on the pilot experiences, evaluation, and lessons learnt
- Guiding materials for anyone starting an energy community

Start-Up Package – who is this for?

- ✓ any local organization,
- ✓ local municipality,
- ✓ citizens,
- ✓ citizen groups, or
- ✓ any followers,
- ✓ that would like to establish energy community

The most prominent words include examples, clear, information, pictures, short, visual, numbers, and easy, which reflect the **core themes of clarity, visuality, simplicity, and practical illustration.**

Start with the people and the need, check what is possible, keep the project manageable, and develop it step by step.

How to access it?

Limited number of printed books shared at the conference and by StartSun partners

Online version accessible
