

A journey of collaboration and joint learning

From Vision to Reality

Being part of a tangible shift

- Six pilot projects
 - Solar installations at four of our sites
 - two legally established initiatives
 - a wealth of lessons learned
- Deepened dialogue and collaboration
- New regulations related to energy sharing

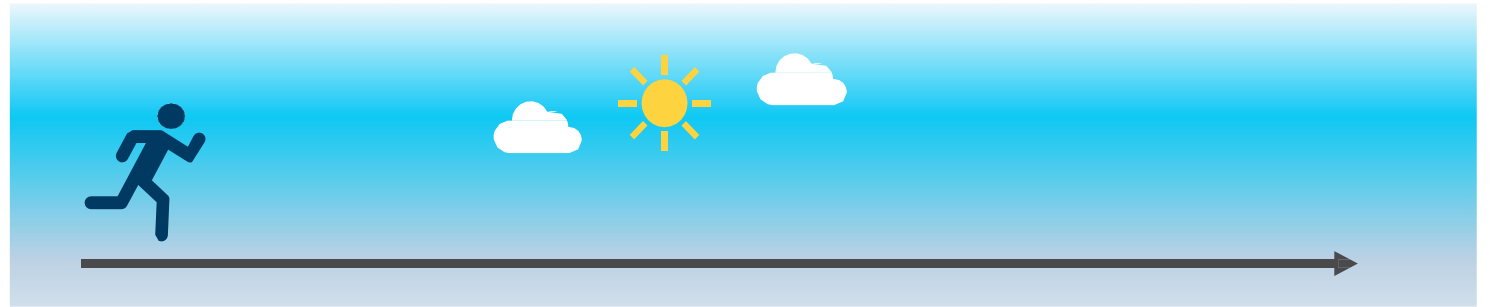

From knowledge to experience

Lessons Learned

Building experience step by step

- Start-up Package
- Lessons learned
- Supporting guidelines
- Feasibility Calculator

The Power of Motivation

Why Energy Communities Matter

- Driven by environmental concerns, financial savings, or a desire to strengthen your community?
- It will not work in isolation
- One critical piece of the puzzle.

Connection is key
